

MICHIGAN DEPARTMENT OF TRANSPORTATION

PHASE II STORM WATER MANAGEMENT PLAN

Permit No. MI0057364

Prepared by:

**Tetra Tech MPS
Lansing, Michigan**

For

April 2005

THIS PAGE BLANK

Acronyms

The following acronym list is provided as a comprehensive resource for those reading this plan.

APA – Authorized Public Agency
BL – Business Loop
BMP – Best Management Practice
Caltrans – California Department of Transportation
CEA – County Enforcing Agency
CFR – Code of Federal Regulations
CWA – Clean Water Act
EPA – Environmental Protection Agency
IDEP – Illicit Discharge Elimination Program
I- – Interstate
M- – Michigan Highway
MARS – Maintenance Activity Reporting System
MCL – Michigan Compiled Laws
MDEQ – Michigan Department of Environmental Quality
MDOT – Michigan Department of Transportation
MEA – Municipal Enforcing Agency
MEP – Maximum Extent Practicable
MPO – Metropolitan Planning Organization
MS4 – Municipal Separate Storm Sewer System
NPDES – National Pollutant Discharge Elimination System
NREPA – Natural Resources and Environmental Protection Act
O&M – Operation and Maintenance
PA – Public Act
PEAS - Pollution Emergency Alerting System
PEP – Public Education Plan
PIPP – Pollution Incidence Prevention Plan
PSD – Point Source Discharge
ROW – Right-of-Way
S – Statewide
SESC – Soil Erosion and Sedimentation Control
SEMCOG – Southeast Michigan Council of Governments
SWMP – Storm Water Management Plan
SWPPI – Storm Water Pollution Prevention Initiative
TMDL – Total Maximum Daily Load
TSC – Transportation Service Center
UA – Urbanized Area
US- – Federal Routes
USEPA – United States Environmental Protection Agency
QA/QC – Quality Assurance/Quality Control

Table of Contents

1. Overview of the Storm Water Management Plan
 - 1.1. Purpose
 - 1.2. Scope
 - 1.2.1. Public Education, Outreach, and Participation
 - 1.2.2. Illicit Discharge Elimination
 - 1.2.3. Post Construction Storm Water Management for New Development and Redevelopment Projects
 - 1.2.4. Construction Storm Water Runoff Control
 - 1.2.5. Pollution Prevention/Good Housekeeping for MDOT
 - 1.3. MDOT Facilities and Separate Storm Water Systems
 - 1.4. MDOT Staff Responsibilities for Storm Water Management
 - 1.5. Legal Authority
 - 1.6. Related MDOT Documents
 - 1.7. Emergency Response and Discharge Notification
 - 1.7.1. Storm Water Quality Issues
 - 1.7.2. Notification Requirements
 - 1.8. Appendices
2. Storm Water Best Management Practices
 - 2.1. Introduction
 - 2.2. Categories of BMPs
 - 2.2.1. Structural BMPs
 - 2.2.2. Nonstructural BMPs
 - 2.2.3. Organizational BMPs
 - 2.3. Annual Review of Organizational Best Management Practices
 - 2.3.1. Preparation and Ongoing Planning
 - 2.3.2. Program Implementation
 - 2.3.3. Assess the Effectiveness
 - 2.3.4. Program Enhancement
 - 2.4. Structural and Nonstructural BMP Adoption Procedure
 - 2.5. Interim Milestones and Measurable Goals
 - 2.5.1. Numerical Tracking
 - 2.5.2. Changes in Knowledge/Awareness
 - 2.5.3. BMP Implementation and Load Reductions
 - 2.5.4. Changes in Discharge Quality
 - 2.5.5. Changes in Receiving Water Quality
3. Plan Elements and Activities
 - 3.1. Overview
 - 3.2. Public Education, Outreach, and Participation
 - 3.2.1. Measurable Goals and Interim Milestones
 - 3.2.2. Job-Related Public Education, Outreach and Participation
 - 3.2.3. General Public Education

- 3.2.4. Education on Tap-In/Discharge Permit
 - 3.2.5. Notification of Watershed and Environmental Protection Organizations
 - 3.2.6. Cooperation with Local MPOs and Storm Water Master Plans
- 3.3. Illicit Discharge Elimination Plan
 - 3.3.1. Measurable Goals and Interim Milestones
 - 3.3.2. Outfall Mapping
 - 3.3.3. Conduct IDEP in Urbanized Area
 - 3.3.4. Illicit Discharge Reporting and MDEQ Notification System
 - 3.3.5. Legal Authority
 - 3.3.6. Training Materials
- 3.4. Post Construction Storm Water Management for New Development and Redevelopment Projects
 - 3.4.1. Measurable Goals and Interim Milestones
 - 3.4.2. Coordination with Metropolitan Planning Organizations (MPOs)
 - 3.4.3. Waterway TMDL Compliance
 - 3.4.4. Standards to Address Right-of-Way (ROW) Projects
 - 3.4.5. Internal Training Modules for Design Engineers
 - 3.4.6. BMP Operation & Maintenance (O&M) for New and Re-Development Projects
 - 3.4.7. Review of BMPs During Initial Design
- 3.5. Construction Storm Water Runoff Control
 - 3.5.1. Measurable Goals and Interim Milestones
 - 3.5.2. Qualifying Local and State Erosion and Sedimentation Controls
 - 3.5.3. Notification of MDEQ of Non-Compliance
 - 3.5.4. Procedure to Receive and Consider Public Complaints
 - 3.5.5. Quality Assurance/Quality Control (QA/QC) Protocol
- 3.6. Pollution Prevention/Good Housekeeping for MDOT Operations
 - 3.6.1. Measurable Goals and Interim Milestones
 - 3.6.2. MDOT Manuals
 - 3.6.3. Structural BMPs
 - 3.6.4. Roadways
 - 3.6.5. Separate Storm Sewer Outfall Labeling
 - 3.6.6. Review of Flow Control Projects
 - 3.6.7. Fleet Maintenance
 - 3.6.8. Pesticides and Fertilizers
 - 3.6.9. Staff Training
- 3.7. Activities Referenced in the SWMP

4. Bay Region

5. Grand Region

6. Metro Region

7. North Region

8. Southwest Region

9. Superior Region

10. University Region

Appendices

- A. MDEQ NPDES Permit No. MI0057364
- B. Task Matrix
- C. Sample PIPP for MDOT and Contract County Facility
- D. MDOT Best Management Practices
- E. Statewide Watershed and Local Stream Organizations
- F. Public Comments and MDOT Responses on SWMP
- G. Illicit Discharge Elimination Program (IDEP) Protocol Manual
